

## PRODUCT AND REGULATORY INFORMATION

Page 1 of 5

---

**"Ciba Proprietary Information. Not to be disclosed to Third Parties without written permission".**

**Ciba Inc. has committed to Responsible Care and Product Stewardship as a corner stone of its environmental, health and safety policy and management practices. Its business processes aim at minimizing business and regulatory non-compliance risks and at establishing sustainable relationships through the whole value chain from vendors to end users in an environment of increasing chemicals control regulation and product liability worldwide.**

**Disclaimer:** The information provided below is based on the technical information available at the date of publication.

SELLER MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, INCLUDING OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

No statements herein are to be construed as inducements to infringe any relevant patent. Under no circumstances shall Seller be liable for incidental, consequential or indirect damages for alleged negligence, breach of warranty, strict liability, tort or contract arising in connection with the product(s). Buyer's sole remedy and Seller's sole liability for any claims shall be Buyer's purchase price. Data and results are based on controlled or lab work and must be confirmed by Buyer by testing for its intended conditions of use. The product(s) has not been tested for, and is therefore not recommended for, uses for which prolonged contact with mucous membranes, abraded skin, or blood is intended; or for uses for which implantation within the human body is intended.

### REGISTRATION

#### CHEMICAL INVENTORY STATUS

The following table reflects regulatory status (Inventory listing) for product based on its component(s) for general industrial applications and use. Local chemical legislation might apply in addition. For further support, please consult local MSDS and /or contact your local PS&R representative.

Legal Area	Inventory Status	Statement
Australia	Inventory Listed	Listed in the legal area register
Canada DSL	Inventory Listed	All components either exempt or listed on the DSL
Switzerland	Inventory Listed	Listed in the legal area register
China	Inventory Listed	Listed in the legal area register
Japan ENCS	Inventory Listed	Listed in the legal area register
Japan ISLH	Inventory Listed	Listed in the legal area register
Korea	Inventory Listed	Listed in the legal area register
New Zealand	Inventory Listed	Listed in the legal area register
Philippines	Inventory Listed	Listed in the legal area register
USA	Inventory Listed	All component(s) comprising this product are either exempt or listed on the TSCA inventory
EU	-	Compliant with REACH (Regulation (EC) No 1907/2006, June 2007). More info at MyBusiness@Ciba at <a href="http://www.ciba.com">www.ciba.com</a> )

### CONSTITUENTS

Constituent	
Aromatic amines (German list)	<b>NONE OF THE SUBSTANCES LISTED ARE USED IN THE PRODUCTION OF or INTENTIONALLY ADDED DURING THE PROCESSING OF THIS PRODUCT</b>
Asbestos	
Azo compounds	
Bisphenol A, Bisphenol S	
Boranes	
Chlorinated paraffins	
Chlorinated solvents	
Creosote	
Dioxins/furans	
Natural rubber latex	<b>NONE OF THE SUBSTANCES LISTED ARE USED IN THE PRODUCTION OF or INTENTIONALLY ADDED DURING THE PROCESSING OF THIS PRODUCT</b>
Nonylphenol / Nonylphenol ethoxylates	
Octylphenol /Octylphenol ethoxylates	
Organo-cadmium pigments	
Organo-tin compounds	
Ozone depleting substances , CFCs etc. incl EU regulated (2037/2000/EC)	
Penta/octabrom/decabromo-diphenyl ethers	
Phthalates incl EU regulated (di-isononyl, di 2ethylhexyl, di-n-octyl, di-n-decyl, butylbenzyl, di-butyl)	
Polybrominated biphenyls/terphenyls	
Polybrominated/chlorinated organic compounds	
Polychlorinated biphenyls/terphenyls	
PAH (Polycyclic Aromatic Hydrocarbons)	
PFOS (Perfluorooctanesulfonates)	
PFAS (Perfluoroalkyl sulfonates)	
PFOA (Perfluorooctanoic acid)

# Safety Data Sheet

May not comply with national legislation; shall be used only as a source of information.

TINUVIN 360

Release: 1.1 (REG\_EU)  
Date / Revised: 05.03.2008  
Date of Print: 07.03.2008

## 1. Identification of the Substance/Preparation and of the Company/Undertaking

Designation/Trade Name: **TINUVIN 360**  
Use: stabilizer  
Company: Ciba AG  
Klybeckstrasse 141  
CH-4002 BASEL  
Schweiz  
Tel +41 61 636 1111  
Fax +41 61 636 1212  
Emergency contact: +41 61 632 07 79

## 2. Composition/Information on Ingredients

### Chemical nature:

2,2'-methylenebis(6-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol)

Hazardous ingredients		Classification*	Content (%)
CAS-No.: 103597-45-1 EC-No.: 403-800-1	2,2'-methylenebis(6-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol)	R 53	100

\*) The wording of the hazard symbols and R-phrases is specified in chapter 16 if dangerous ingredients are mentioned.

## 3. Hazards Identification

Classified according to Annex 1

### R phrase(s):

R53 May cause long-term adverse effects in the aquatic environment.

## 4. First-aid Measures

### If inhaled:

Move to fresh air. Seek medical attention if you feel unwell or if exposure prolonged. In case of irritation of the respiratory system or mucous membranes, seek medical attention.

### On skin contact:

Wash with plenty of soap and water. Do not use organic solvents. Get medical attention if irritation occurs.

### On contact with eyes:

Rinse immediately with plenty of water for at least 10 minutes taking care to wash under the eyelids. If irritation persists, seek medical attention.

### On ingestion:

Affected person should drink 500 - 800 ml water, if possible with suspended activated carbon for medical use. In case of spontaneous vomiting be sure that vomitus can freely drain because of danger of suffocation. Give water repeatedly. Rinse mouth and then drink plenty of water. Induce vomiting (only first-aid staff) if person is conscious. Seek medical attention. Never give anything by mouth to an unconscious person.

# Safety Data Sheet

May not comply with national legislation; shall be used only as a source of information.

TINUVIN 360

Release: 1.1 (REG\_EU)  
Date / Revised: 05.03.2008  
Date of Print: 07.03.2008

## 5. Fire-fighting Measures

### Suitable extinguishing media:

water spray, carbon dioxide, foam, dry powder

### Unsuitable extinguishing media for safety reasons:

water jet

### Combustion products:

Carbon oxides., Nitrogen oxides, toxic gases/vapours

### Exposure hazards:

Do not release chemically contaminated water into drains, soil or surface water. Sufficient measures must be taken to retain the water used for extinguishing. Dispose of contaminated water and soil according to local regulations.

### Special protective equipment:

Full protective clothing. Wear a self-contained breathing apparatus.

## 6. Accidental Release Measures

### Personal precautions:

Do not breathe vapours/dust. Sources of ignition should be kept well clear. Avoid contact with the skin, eyes and clothing.

### Environmental precautions:

Prevent entry into sewage systems, ground and surface waters.

### Methods for cleaning-up or taking-up:

Take up mechanically and collect in suitable container (adequately labelled) for disposal.

Collect waste in suitable containers, which can be labeled and sealed.

Avoid raising dust.

## 7. Handling and Storage

### Handling

Handle and open container with care.

Avoid dust formation and ignition sources. Ensure good local exhaust ventilation. Do not eat, drink or smoke at the workplace.

Close containers immediately after use.

### Protection against fire and explosion:

Avoid creating dusty conditions. Risk of explosion if an air-dust mixture forms.

Inert container or use a system otherwise designed to prevent or contain an explosion - seek expert advice.

### Storage requirements:

Keep away from food and drink.

Keep only in the original container.

Keep container tightly closed.

Avoid dust formation and ignition sources. Ensure good local exhaust ventilation. Do not eat, drink or smoke at the workplace.

Keep in a dry, cool place.

## 8. Exposure Controls and Personal Protection

### Exposure limit values

103597-45-1: 2,2'-methylenebis(6-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol)

# Safety Data Sheet

May not comply with national legislation; shall be used only as a source of information.

TINUVIN 360

Release: 1.1 (REG\_EU)  
Date / Revised: 05.03.2008  
Date of Print: 07.03.2008

Company Internal Exposure Limit:  
8h TWA: 10 mg/m<sup>3</sup> (Inhalable)  
General exposure limit for inhalable particulate matter

## Technical measures/precautions:

Exposure limit(s) should be monitored using suitable analytical equipments.

## Respiratory protection:

Dustmask.

## Hand protection:

Protective gloves.

## Eye protection:

Safety glasses with side-shields.

## Skin and body protection:

Working clothes.

Closed footwear.

## 9. Physical and Chemical Properties

Form:	powder	
Colour:	slightly yellow	
Odour:	odourless	
pH value:	Not applicable	
Melting point:	> 195 °C	(Directive 92/69/EEC, A.1)
Boiling point:	Not applicable	
Flash point:	Not applicable	
Flammability:	not highly flammable	(Directive 92/69/EEC, A.10)
Ignition temperature:	400 °C	(BAM)
Self-ignition temperature:	No self-ignition	(Directive 92/69/EEC, A.16)
Explosion hazard:	not explosive	(Directive 92/69/EEC, A.14)
Fire promoting properties:	not fire-propagating	(Directive 92/69/EEC, A.17)
Vapour pressure:	0.6 pPa (25 °C) Extrapolated value	(OECD 104/EC A.4)
Density:	1.2 g/cm <sup>3</sup> (20 °C)	(EC A.3)
Solubility in water:	< 0.007 mg/l (20 °C)	(Directive 92/69/EEC, A.6)
Solubility:	acetone 0.4 g/l (20 °C) Chloroform 1,481.7 g/l (20 °C) Ethanol 0.2 g/l (20 °C) n-Hexane 0.2 g/l (20 °C) Dichloromethane (Methylene chloride) 1,002 g/l (20 °C) Toluene 296 g/l (20 °C)	
Partitioning coefficient n-octanol/water (log Pow):	12.7 calculated	(OECD Guideline 117)

# Safety Data Sheet

## 10. Stability and Reactivity

### Decomposition temperature:

> 350 °C (Temperature program (Lütolf))

### Conditions to avoid:

Avoid electro-static discharge.

### Materials to avoid:

strong acids, strong bases, strong oxidizing agents

### Hazardous decomposition products:

Carbon oxides., nitrogen oxides, toxic gases/vapours

## 11. Toxicological Information

### Acute oral toxicity:

rat/LD50: > 2,000 mg/kg  
(OECD Guideline 401)

### Acute dermal toxicity:

rat/LD50: > 2,000 mg/kg  
(OECD Guideline 402)

### Acute inhalation toxicity:

Not tested

### Skin irritation/corrosion:

rabbit/non-irritant (OECD Guideline 404)

### Eye irritation/corrosion:

rabbit/non-irritant (OECD Guideline 405)

### Skin Sensitization:

guinea pig/Non-sensitizing. (OECD Guideline 406)

### Genetic toxicity in vitro:

Ames-test/Non-mutagenic. (OECD 471/EC B.14)

### Repeated dose toxicity:

rat / Subacute Toxicity:  
NOEL: > 1000 mg/kg (OECD 407/EC B.7)

## 12. Ecological Information

### Toxicity to fish:

Brachydanio rerio/96 h/LC50: > 12.7 mg/l (Directive 92/69/EEC, C.1)  
No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic invertebrates:

Daphnia magna/48 h/EC50: > 50.2 mg/l (Directive 92/69/EEC, C.2)  
No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic plants:

Scenedesmus subspicatus/72 h/LC50: > 2.0 mg/l (OECD 201/EC C. 3)  
No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to microorganisms:

activated sludge/3 h/EC50: > 100 mg/l (EEC C. 11)  
No effects at the highest tested concentration. The tested concentration is well above its water solubility

# Safety Data Sheet

May not comply with national legislation; shall be used only as a source of information.

TINUVIN 360

Release: 1.1 (REG\_EU)  
Date / Revised: 05.03.2008  
Date of Print: 07.03.2008

## Biodegradation:

28 d: (OECD Guideline 302 C)  
Not readily biodegradable.

## Chemical oxygen demand (COD):

1,870 mg/g (Directive 84/449/EEC, C.9)

## Bioaccumulation:

< 1.5 (OECD Guideline 305 C)

## Additional remarks environmental fate and pathway:

Do not discharge product uncontrolled into the environment.

## 13. Disposal Considerations

### Waste from residue/unused products:

Residual chemical should be disposed by incineration or by other modes of disposal in compliance with local legislation.

### Contaminated packaging:

Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

Dispose of in accordance with national, state and local regulations.

Clean packaging material should be subjected to waste management schemes (recovery recycling, reuse) according to local legislation.

## 14. Transport Information

### Land transport (ADR):

Not classified as a dangerous good under transport regulations.

### Land transport (RID):

Not classified as a dangerous good under transport regulations.

### Sea transport (IMDG):

Not classified as a dangerous good under transport regulations.

### Air transport (ICAO/IATA):

Not classified as a dangerous good under transport regulations.

## 15. Regulatory Information

### Regulations of the European Union (Labelling) / National legislation/regulations

Classified according to Annex 1

### R phrase(s):

R53 May cause long-term adverse effects in the aquatic environment.

### S phrase(s):

S61 Avoid release to the environment. Refer to special instructions/safety data sheets.

### Contains:

2,2'-methylenebis(6-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol)

EC Number: 403-800-1

# Safety Data Sheet

May not comply with national legislation; shall be used only as a source of information.

TINUVIN 360

Release: 1.1 (REG\_EU)  
Date / Revised: 05.03.2008

## 16. Other Information

### Use:

#### Restricted use:

THIS MATERIAL IS NOT INTENDED FOR USE IN PRODUCTS FOR WHICH PROLONGED CONTACT WITH MUCOUS MEMBRANES, BODY FLUIDS OR ABRADED SKIN, OR IMPLANTATION WITHIN THE HUMAN BODY, IS SPECIFICALLY INTENDED, UNLESS THE FINISHED PRODUCT HAS BEEN TESTED IN ACCORDANCE WITH NATIONALLY AND INTERNATIONALLY APPLICABLE SAFETY TESTING REQUIREMENTS. BECAUSE OF THE WIDE RANGE OF SUCH POTENTIAL USES, CIBA IS NOT ABLE TO RECOMMEND THIS MATERIAL AS SAFE AND EFFECTIVE FOR SUCH USES AND ASSUMES NO LIABILITY FOR SUCH USES.

### R phrases and hazard symbols:

R53 May cause long-term adverse effects in the aquatic environment.

Vertical lines in the left hand margin indicate an amendment from the previous version.

This product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with any legal regulation. The information contained herein is based on the present state of our knowledge and is intended to describe our products from the point of view of safety requirements. It should not therefore be construed as guaranteeing specific properties.

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

## NFPA Hazard codes:

Health: 1

Fire: 1

Reactivity: 0

Special:

## HMIS III rating

Health: 1

Flammability: 1

Physical hazard: 0

Personal protection: X

HMIS Note: \* Indicates possible chronic health effects.

## 1. Identification of the Substance/Preparation and of the Company/Undertaking

### Company Information

Company: Ciba Corporation  
540 White Plains Road  
P.O. Box 2005  
Tarrytown, NY 10591-9005  
U.S.A.  
Customer Service / Product Information: 1-800-474-4731  
MSDS Request Line: 1-800-431-2360

### Emergency information

Emergency 24-Hour (24h) +1-800-873-1138  
Health/Environmental Phone:  
CHEMTREC: (800) 424-9300 (24hrs) or (703) 527-3887

### Product information

Product: TINUVIN 360  
Use: stabilizer

## 2. Hazards Identification

### Emergency overview

Signal word: NOTICE! !  
Colour: slightly yellow  
Appearance: powder  
State of matter: solid  
Odour: odourless  
Health: This product presents little or no immediate hazard to people if spilled or released.  
Physical/Chemical hazards: Refer to MSDS Section 7 for Dust Explosion information.

### Potential health effects

#### Primary routes of entry:

Ingestion, Skin, Inhalation, Eyes

### Potential environmental effects

This product is moderately toxic to aquatic organisms. Releases to the environment are to be avoided.

## 3. Composition/Information on Ingredients

<u>Chemical name</u>	<u>CAS Number</u>	<u>Content (Weight)</u>	<u>Hazardous</u>
PHENOL, 2,2'-METHYLENEBIS[6-(2H-BENZOTRIAZOL-2-YL)-4-(1,1,3,3-TETRAMETHYLBUTYL)- (9CI)]	103597-45-1	1.0 - 100.0 %	N

This material is classified as not hazardous under OSHA regulations.

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

## 4. First-aid Measures

### Inhalation:

Remove to fresh air, if not breathing give artificial respiration. If breathing is difficult, give oxygen and get immediate medical attention.

### Skin:

If clothing is contaminated, remove and launder before reuse.  
After contact with skin, wash immediately with plenty of water and soap.  
Get medical attention if irritation occurs.

### Eyes:

Immediately flush the eye(s) with lukewarm, gently flowing water for 15 minutes or until the chemical is removed.  
Get immediate medical attention if irritation persists.

### Ingestion:

Do not induce vomiting. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration.  
Seek medical attention immediately.

### Notes to physician:

None known.

## 5. Fire-fighting Measures

### Suitable extinguishing media:

carbon dioxide, dry powder, foam, water fog

### Hazardous combustion products:

Burning may produce toxic combustion products.

### Hazards during fire-fighting:

Standard procedure for chemical fires.  
The product can form an explosive dust/air mixture. For further information, see Section 7 Explosion Hazards.

### Protective equipment for fire-fighting:

Wear self-contained breathing apparatus and chemical-protective clothing.

## 6. Accidental Release Measures

### Cleanup:

Sweep up and shovel into suitable containers for disposal.  
Avoid raising dust.  
Wear suitable protective equipment.  
Should not be released into the environment.

## 7. Handling and Storage

### Handling

#### General advice:

As with all industrial chemicals, use good industrial practices when handling. Avoid eye, skin, and clothing contact.  
Do not inhale. Do not taste or swallow. Use only with adequate ventilation.

#### Protection against fire and explosion:

Combustible powder. Avoid creating dusty conditions. - Grounding is required when emptying into a conductive container. - When flammable solvents are present, the container must be inerted or the system otherwise designed to prevent or contain an explosion. Seek expert advice. In addition, for products packaged in fused-lined (coated) fiberdrums, fiber drums with conductive liners, steel drums, steel pails, and Type "C" FIBC (bulk bags), or other conductive the following instructions also apply: - Always ground this package before emptying. The user is responsible for designing the system to handle solid and ensuring proper training of employees in the system's use.

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

## Storage

### **General advice:**

Keep container tightly closed in a cool, well-ventilated place.

> for industrial use only <

## **8. Exposure Controls and Personal Protection**

### **Engineering Controls:**

Work in well ventilated areas. Do not breathe dust.

### **Personal protective equipment**

#### **Respiratory protection:**

Wear a NIOSH-certified respirator as necessary.

#### **Eye protection:**

Wear safety goggles (chemical goggles) if there is potential for airborne dust exposures.

#### **Body protection:**

Wear chemical resistant gloves and protective clothing.

#### **General safety and hygiene measures:**

There are no OSHA or ACGIH exposure guidelines available for component(s) in this product.

## **9. Physical and Chemical Properties**

Colour:	slightly yellow	
Form:	powder	
State of matter:	solid	
Odour:	odourless	
pH value:		Not tested
Flammability:	not highly flammable	(Directive 92/69/EEC, A.10)
Flash point:		Not applicable
Self-ignition temperature:		(Directive 92/69/EEC, A.16) No self-ignition
Dust explosion class:	Very heavy dust explosion (>300 bar.m/sec). (3)	
Melting point:	> 195 °C	
Boiling point:		Not applicable
Vapour pressure:		( 25 °C) (OECD 104/EC A.4) Extrapolated value
Density:	1.2 g/cm3	( 20 °C) (EC A.3)
Partitioning coefficient n-octanol/water (log Pow):	12.7	( 20 - 25 °C) (OECD Guideline 117) calculated
% Volatiles:		not determined
Solubility in water:	< 0.007 mg/l	( 20 °C)
Solubility in other solvents:		Not tested
Autoignition:	400 °C	(BAM)
Decomposition temperature:	> 350 °C	(Temperature program (Lütolf))
	> 200 °C	(with air (Grewer))

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

## 10. Stability and Reactivity

**Conditions to avoid:** Avoid electro-static discharge. Avoid sources of ignition.

**Substances to avoid:** Strong oxidizing agents, strong acids, strong bases.

**Possibility of Hazardous Reactions:** No hazardous reactions known.

**Hazardous decomposition products:** No decomposition expected under normal storage conditions.

## 11. Toxicological Information

### Acute oral toxicity:

LD50 / oral / rat: > 2,000 mg/kg

### Acute inhalation toxicity:

Not tested

### Acute dermal toxicity:

LD50 / dermal / rat: > 2,000 mg/kg

### Skin irritation:

(Rabbits) Not an irritant.

### Eye irritation:

(Rabbits) Not an irritant.

### Skin Sensitization:

(Guinea pig) Maximization test: Not a sensitizer.

### Subchronic Toxicity:

(Rats) In a 14 day study and 28 study, 0 to 1000 mg/Kg was administered orally. No significant effects were recorded. The no-observable effect level (NOEL) was recorded as 1000 mg/Kg. (Rats) The test article was administered by gavage for at least 93 days at dose levels of 100, 300 or 1,000 mg/Kg. All animals survived the study with no clinical signs of toxicity. There were no effects on body weight, food consumption, behavioral reactions, hematology, urinalysis or gross and histopathologic examination. The NOEL was determined to be 1,000 mg/Kg.

### Subacute Toxicity:

not determined

### Chronic toxicity:

not determined

### Genetic toxicity:

Cytogenic: Negative.

Chinese Hamster Cells (V79): Negative.

Ames Test (S. typhimurium and E. coli): Negative

### Carcinogenicity:

None of the components in this product at concentrations greater than 0.1% are listed by IARC; NTP, OSHA or ACGIH as a carcinogen.

### Reproductive toxicity:

not determined

### Developmental toxicity/teratogenicity:

not determined

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

## Additional Information:

Not determined

## 12. Ecological Information

### Toxicity to fish:

Brachydanio rerio/96 h/LC50: > 12.7 mg/l (Directive 92/69/EEC, C.1)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic invertebrates:

Daphnia magna/24 h/EC50: > 50.2 mg/l (Directive 92/69/EEC, C.2)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic plants:

algae/72 h/EC50: > 2.0 mg/l (OECD 201/EC C. 3)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to microorganisms:

activated sludge/3 h/IC50: > 100 mg/l (EEC C. 11)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Biodegradation:

Evaluation: Not biodegradable.

### Bioaccumulation:

OECD Guideline 305 C

Bioconcentration factor: < 1.5

## 13. Disposal Considerations

### Waste disposal of substance:

Dispose of in accordance with national, state and local regulations.

**Resource Conservation and Recovery Act (RCRA):** Not a hazardous waste under RCRA (40 CFR 261).

## 14. Transport Information

### U.S. Department of Transportation

The listed Transportation Classification does not address regulatory variations due to changes in package size, mode of shipment or other regulatory descriptors.

### Road transport:

Special shipping information: Not classified as a dangerous good under transport regulations.

### Air transport:

Special shipping information: Not classified as a dangerous good under transport regulations.

### Inland-waterway transport:

Special shipping information: Not classified as a dangerous good under transport regulations.

## 15. Regulatory Information

Canada: Domestic Substances List (DSL):

All components either exempt or listed on the DSL

US: Toxic Substances Control Act (TSCA):

All component(s) comprising this

# Material Safety Data Sheet

OSHA / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.2

Product: TINUVIN 360

product are either exempt or listed on the TSCA inventory

## United States - Regulations

### **SARA Section 311/312 Hazard Communication Standard:**

Acute Health:	N	Fire:	N
Chronic Health:	N	Reactivity:	N
		Sudden release of pressure:	N

### **SARA Reportable Quantities:**

No components listed.

### **SARA Section 313 Toxic Chemical List:**

No components listed.

### **OSHA hazard category:**

This material is classified as not hazardous under OSHA regulations.

### **Toxic Substances Control Act (TSCA) Significant New Use Rule (SNUR):**

This product is not subject to a Significant New Use Rule (SNUR).

### **Toxic Substances Control Act (TSCA) Section 5(e) Consent Orders:**

This product is not subject to a Section 5(e) Consent Order.

### **Toxic Substances Control Act (TSCA) Section 5(f):**

This product is not subject to a Section 5(f)/6(a) rule.

### **Toxic Substances Control Act (TSCA) Section 12(b) Export Notification:**

No components listed.

### **Clean Air Act 111 - Volatile Organic Compounds (VOC):**

This product does not contain any SOCM Intermediate or Final Volatile Organic Compounds (VOC), as defined by the U.S. Clean Air Act Section 111 (40 CFR 60.489).

### **Clean Air Act 602 - Ozone Depleting Substances (ODS):**

This product neither contains, nor was manufactured with, a Class I or Class II ozone depleting substance (ODS), as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App. A+B).

### **Clean Water Act - Priority Pollutants (PP):**

This product does not contain any priority pollutants listed under the U.S. Clean Water Act Section 307(2)(1) Priority Pollutant List (40 CFR 401.15).

### **Pennsylvania Right to Know:**

This product does not contain any components that are subject to the Pennsylvania Right-To-Know disclosure requirement.

### **California Proposition 65 - Chemicals Known to the State to Cause Cancer:**

No components listed.

### **California Proposition 65 - Chemicals Known to the State to Cause Reproductive Toxicity:**

No components listed.

## International Regulations

### **Chemical Weapons Convention:**

This product does not contain any component(s) listed under the Chemical Weapons Convention Schedule of Chemicals.

## **16. Other Information**

## 1. Identification of the Substance/Preparation and of the Company/Undertaking

### Company Information

Company: Ciba Canada Ltd.  
2626 Argentia Road  
Mississauga, Ontario L5N 5N2  
Canada  
Customer Service / Product Information: 1-866-679-2422

### Emergency information

Emergency 24-Hour Health/Environmental Phone: 24h: +1-800-873-1138  
CANUTEC: (613) 996-6666 (24hrs)

### Product information

Product: TINUVIN 360  
Use: stabilizer

## 2. Hazards Identification

### Emergency overview

Signal word: NOTICE! !  
Colour: slightly yellow  
Appearance: powder  
State of matter: solid  
Odour: odourless  
Health: This product presents little or no immediate hazard to people if spilled or released.  
Physical/Chemical hazards: Refer to MSDS Section 7 for Dust Explosion information.

### Potential health effects

#### **Primary routes of entry:**

Ingestion, Skin, Inhalation, Eyes

### Potential environmental effects

This product is moderately toxic to aquatic organisms. Releases to the environment are to be avoided.

## 3. Composition/Information on Ingredients

This material does not contain any hazardous components that are reportable according to WHMIS criteria.

## 4. First-aid Measures

### **Inhalation:**

Remove to fresh air, if not breathing give artificial respiration. If breathing is difficult, give oxygen and get immediate medical attention.

### **Skin:**

If clothing is contaminated, remove and launder before reuse.  
After contact with skin, wash immediately with plenty of water and soap.  
Get medical attention if irritation occurs.

# Material Safety Data Sheet

WHMIS / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.1

Product: TINUVIN 360

## Eyes:

Immediately flush the eye(s) with lukewarm, gently flowing water for 15 minutes or until the chemical is removed. Get immediate medical attention if irritation persists.

## Ingestion:

Do not induce vomiting. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. Seek medical attention immediately.

## Notes to physician:

None known.

## 5. Fire-fighting Measures

### Suitable extinguishing media:

carbon dioxide, dry powder, foam, water fog

### Hazardous combustion products:

Burning may produce toxic combustion products.

### Hazards during fire-fighting:

Standard procedure for chemical fires.

The product can form an explosive dust/air mixture. For further information, see Section 7 Explosion Hazards.

### Protective equipment for fire-fighting:

Wear self-contained breathing apparatus and chemical-protective clothing.

## 6. Accidental Release Measures

### Cleanup:

Sweep up and shovel into suitable containers for disposal.

Avoid raising dust.

Wear suitable protective equipment.

Should not be released into the environment.

## 7. Handling and Storage

### Handling

#### General advice:

As with all industrial chemicals, use good industrial practices when handling. Avoid eye, skin, and clothing contact. Do not inhale. Do not taste or swallow. Use only with adequate ventilation.

#### Protection against fire and explosion:

Combustible powder. Avoid creating dusty conditions. - Grounding is required when emptying into a conductive container. - When flammable solvents are present, the container must be inerted or the system otherwise designed to prevent or contain an explosion. Seek expert advice. In addition, for products packaged in fused-lined (coated) fiberdrums, fiber drums with conductive liners, steel drums, steel pails, and Type "C" FIBC (bulk bags), or other conductive the following instructions also apply: - Always ground this package before emptying. The user is responsible for designing the system to handle solid and ensuring proper training of employees in the system's use.

### Storage

#### General advice:

Keep container tightly closed in a cool, well-ventilated place.

> for industrial use only <

## 8. Exposure Controls and Personal Protection

### Engineering Controls:

Work in well ventilated areas. Do not breathe dust.

# Material Safety Data Sheet

WHMIS / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.1

Product: TINUVIN 360

## Personal protective equipment

### **Respiratory protection:**

Wear a NIOSH-certified respirator as necessary.

### **Eye protection:**

Wear safety goggles (chemical goggles) if there is potential for airborne dust exposures.

### **Body protection:**

Wear chemical resistant gloves and protective clothing.

### **General safety and hygiene measures:**

There are no OSHA or ACGIH exposure guidelines available for component(s) in this product.

## 9. Physical and Chemical Properties

Colour:	slightly yellow	
Form:	powder	
State of matter:	solid	
Odour:	odourless	
pH value:		Not tested
Flammability:	not highly flammable	(Directive 92/69/EEC, A.10)
Flash point:		Not applicable
Self-ignition temperature:		(Directive 92/69/EEC, A.16) No self-ignition
Dust explosion class:	Very heavy dust explosion (>300 bar.m/sec). (3)	
Melting point:	> 195 °C	
Boiling point:		Not applicable
Vapour pressure:		( 25 °C) (OECD 104/EC A.4) Extrapolated value
Density:	1.2 g/cm <sup>3</sup>	( 20 °C) (EC A.3)
Partitioning coefficient n-octanol/water (log Pow):	12.7	( 20 - 25 °C) (OECD Guideline 117) calculated
% Volatiles:		not determined
Solubility in water:	< 0.007 mg/l	( 20 °C)
Solubility in other solvents:		Not tested
Autoignition:	400 °C	(BAM)
Decomposition temperature:	> 350 °C	(Temperature program (Lütolf))
	> 200 °C	(with air (Grewer))

## 10. Stability and Reactivity

**Conditions to avoid:** Avoid electro-static discharge. Avoid sources of ignition.

**Substances to avoid:** Strong oxidizing agents, strong acids, strong bases.

**Possibility of Hazardous Reactions:** No hazardous reactions known.

**Hazardous decomposition products:** No decomposition expected under normal storage conditions.

## 11. Toxicological Information

### **Acute oral toxicity:**

LD50 / oral / rat: > 2,000 mg/kg

# Material Safety Data Sheet

WHMIS / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.1

Product: TINUVIN 360

## Acute inhalation toxicity:

Not tested

## Acute dermal toxicity:

LD50 / dermal / rat: > 2,000 mg/kg

## Skin irritation:

(Rabbits) Not an irritant.

## Eye irritation:

(Rabbits) Not an irritant.

## Skin Sensitization:

(Guinea pig) Maximization test: Not a sensitizer.

## Subchronic Toxicity:

(Rats) In a 14 day study and 28 study, 0 to 1000 mg/Kg was administered orally. No significant effects were recorded. The no-observable effect level (NOEL) was recorded as 1000 mg/Kg. (Rats) The test article was administered by gavage for at least 93 days at dose levels of 100, 300 or 1,000 mg/Kg. All animals survived the study with no clinical signs of toxicity. There were no effects on body weight, food consumption, behavioral reactions, hematology, urinalysis or gross and histopathologic examination. The NOEL was determined to be 1,000 mg/Kg.

## Subacute Toxicity:

not determined

## Chronic toxicity:

not determined

## Genetic toxicity:

Cytogenic: Negative.

Chinese Hamster Cells (V79): Negative.

Ames Test (S. typhimurium and E. coli): Negative

## Carcinogenicity:

None of the components in this product at concentrations greater than 0.1% are listed by IARC; NTP, OSHA or ACGIH as a carcinogen.

## Reproductive toxicity:

not determined

## Developmental toxicity/teratogenicity:

not determined

## Additional Information:

Not determined

## 12. Ecological Information

### Toxicity to fish:

Brachydanio rerio/96 h/LC50: > 12.7 mg/l (Directive 92/69/EEC, C.1)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic invertebrates:

Daphnia magna/24 h/EC50: > 50.2 mg/l (Directive 92/69/EEC, C.2)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

### Toxicity to aquatic plants:

algae/72 h/EC50: > 2.0 mg/l (OECD 201/EC C. 3)

# Material Safety Data Sheet

WHMIS / ANSI Z400.1-2004 Compliant

Date / Revised: 02-23-2007

Release: 1.1

Product: TINUVIN 360

No effects at the highest tested concentration. The tested concentration is well above its water solubility

## **Toxicity to microorganisms:**

activated sludge/3 h/IC50: > 100 mg/l (EEC C. 11)

No effects at the highest tested concentration. The tested concentration is well above its water solubility

## **Biodegradation:**

Evaluation: Not biodegradable.

## **Bioaccumulation:**

OECD Guideline 305 C

Bioconcentration factor: < 1.5

## **13. Disposal Considerations**

### **Waste disposal of substance:**

Dispose of in accordance with national, state and local regulations.

## **14. Transport Information**

### **TDG (Canada) Road transport**

Special shipping information: Not classified as a dangerous good under transport regulations.

### **International Air Transport Association (IATA)**

Special shipping information: Not classified as a dangerous good under transport regulations.

### **International Maritime Dangerous Goods Code (IMDG)**

Special shipping information: Not classified as a dangerous good under transport regulations.

## **15. Regulatory Information**

Canada: Domestic Substances List (DSL):

All components either exempt or listed on the DSL

US: Toxic Substances Control Act (TSCA):

All component(s) comprising this product are either exempt or listed on the TSCA inventory

### **Canada Regulations**

#### **Workplace Hazardous Materials Information System (WHMIS Classification):**

This product is not WHMIS controlled.

#### **Significant New Activity Conditions (SNAC):**

This product does not contain any components subject to a SNAC Notice.

### **International Regulations**

#### **Chemical Weapons Convention:**

This product does not contain any component(s) listed under the Chemical Weapons Convention Schedule of Chemicals.

## **16. Other Information**

### **Product Safety Contact:**

END OF DATA SHEET

## Ciba® TINUVIN® 360

### Very Low Volatile Benzotriazole UV Absorber

<b>Characterization</b>	TINUVIN® 360 is a very low volatile, dimeric 2-hydroxy benzotriazole UV-absorber used in a variety of polymers and resin compositions.		
<b>Chemical name</b>	2,2'-methylenebis(6-(2H-benzotriazol-2-yl)-4-1,1,3,3-tetramethylbutyl)phenol)		
<b>CAS number</b>	103597-45-1		
<b>Structure</b>	TINUVIN 360 		
<b>Molecular weight</b>	659 g/mol		
<b>Applications</b>	TINUVIN 360 applications include acrylic resins, polyalkylene terephthalates, polycarbonates, modified polyphenylene ether or sulfide compounds, polyamides, polyacetals, polyolefins, styrenics, elastomers and high performance plastics.		
<b>Features/benefits</b>	<p>TINUVIN 360 is particularly suitable for processing and aging conditions where high loads, low volatility and good compatibility are required. The specific objective is to achieve high UV-screen performance and minimize sublimation through vents as well as prevention of deposits on molds, chill-rolls or calibrators. It can prevent exudation/crystallization on end-parts during manufacturing or exposure to high service temperatures.</p> <p>Such requirements are especially critical for complex moldings, fibers, sheets, twin wall sheets, thin films, adhesive layers and laminated or co-extruded semi-finished parts.</p> <p>Depending on equipment, processing conditions, and polymer types, TINUVIN 360 allows direct two-layer co-extrusion of sheets without the use of a neutral third top layer to prevent sublimation and/or deposits generated by the thin, highly UVA-loaded second layer.</p>		
<b>Product forms</b>	<i>Code:</i> <i>Appearance:</i>	TINUVIN 360 Slightly yellow powder	TINUVIN 360 ED Slightly yellow, free-flowing granules
<b>Guidelines for use</b>	<p>TINUVIN 360 (0.2 - 10% by weight) can be readily incorporated in the polymer by using conventional techniques such as powder, solution, or melt blending (e.g. extrusion compounding).</p> <p>TINUVIN 360 can be used alone or in a variety of blends and combinations with Ciba IRGAFOS®, Ciba IRGANOX®, TINUVIN, Ciba CHIMASSORB® and other functional stabilizers where often a synergistic performance is observed.</p>		

<b>Physical Properties</b>	<i>Melting Point</i>	195 °C
	<i>Flashpoint</i>	>200 °C
	<i>Density (20 °C)</i>	1.2 g/cm <sup>3</sup>
	<i>Vapor Pressure (25 °C)</i>	6 E-13 Pa
	<b>Solubility (20 °C)</b>	<b>% w/w</b>
	<i>Water</i>	<0.001
	<i>Acetone</i>	0.01
	<i>Chloroform</i>	10
	<i>Ethanol</i>	0.01
	<i>Ethyl acetate</i>	0.01
<b>Volatility</b>	<i>n-Hexane</i>	0.01
	<i>Methylene chloride</i>	7.5
	<i>Toluene</i>	3.4
	<b>Weight Loss (%)</b>	<b>Pure substance; TGA, heating rate 20°C/min in air</b>
	1.0	<i>Temperature °C</i>
	2.0	333
		350

Absorption Spectrum (10 mg/l, Chloroform)

TINUVIN 360 exhibits strong absorbance in the 300-400 nm region and minimal absorbance in the visible region (> 400 nm) of the spectrum. The absorption maxima are at 308 nm and 349 nm ( $\epsilon = 31895$  l/mol·cm) in chloroform solution

<b>Handling &amp; Safety</b>	In accordance with good industrial practice, handle with care and prevent contamination of the environment. Avoid dust formation and ignition sources.
<b>Registration</b>	For more detailed information please refer to the material safety data sheet TINUVIN 360 is listed on the following Inventories:
	Australia: AICS
	China: First Import
	Europe: ELINCS
	Japan: MITI
	Korea: ECL
	USA: TSCA

IMPORTANT: The following supersedes Buyer's documents.

SELLER MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, INCLUDING OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

No statements herein are to be construed as inducements to infringe any relevant patent. Under no circumstances shall Seller be liable for incidental, consequential or indirect damages for alleged negligence, breach of warranty, strict liability, tort or contract arising in connection with the product(s). Buyer's sole remedy and Seller's sole liability for any claims shall be Buyer's purchase price. Data and results are based on controlled or lab work and must be confirmed by Buyer by testing for its intended conditions of use. The product(s) has not been tested for, and is therefore not recommended for, uses for which prolonged contact with mucous membranes, abraded skin, or blood is intended; or for uses for which implantation within the human body is intended.

## END ARTICLE COMPLIANCE STATEMENTS

**EU Directive 94/62/EC ("Packaging and packaging waste directive")** as amended by 2004/12/EC 30.6.2001– WHEREIN the total heavy metals is below the following:

**Pb + Cd + Cr + Hg**                      **100 ppm**

- **YES - the product conforms to the requirements of the Directive**

**Trace metal requirement of the EU Directive 2000/53/EC ("End of life vehicle directive")** as amended 27.6.2002 –WHEREIN the total heavy metals is below the following:

**Pb**    1000 ppm

**Cd**    100 ppm

**Cr (VI)**                                      1000 ppm

**Hg**    1000 ppm

- **YES - the product conforms to the trace metal requirements of the Directive**

Note: customers must also refer to the msds for hazard classification (defined by Directive 67/548/EEC)

**EU Directive 91/689/EEC ("Hazardous Waste Directive")**

- **YES- the product conforms to the trace metal requirements of the Directive**

Note: customers must refer to the msds for hazard classification (defined by Directive 67/548/EEC)

**EU Directive 2002/95/EC ("ROHS"-Electrical & Electronic Equipment)** under which Hg, Cd, Pb, Cr VI and PBB, PBDPE are to be reduced to:

**Pb**    1000 ppm

**Cd**    100 ppm

**Cr (VI)**                                      1000 ppm

**Hg**    1000 ppm

**PBB**    1000 ppm

**PBDPE**                                    1000 ppm

- **YES - the product conforms to the requirements of the Directive**

**EU Directive 2002/96/EC (Waste Electrical & Electronic Equipment WEEE) .**

under which Hg, PCB, PCT; CFC, HCFC; HFC; hydrocarbons, plastic-containing brominated flame retardants asbestos, ozone depleting substances (see Annex II).

Note the Constituents table & information on trace metals given above

- **YES - the product conforms to the requirements of the Directive**

**European standards for the safety of toys EN Standard: EN 71-3 (1994);** WHEREIN the total heavy metals is below the following:

Sb	60 ppm
As	25 ppm
Ba	1000 ppm
Cd	75 ppm
Cr	60 ppm
Pb	90 ppm
Hg	60 ppm
Se	500 ppm

• **NO-** the product does not conform to the requirements of the EN 71-3 or has not been evaluated

**Compliance with Regulation (EC) No 1907/2006 ANNEX XVII**

(RESTRICTIONS ON THE MANUFACTURE, PLACING ON THE MARKET AND USE OF CERTAIN DANGEROUS SUBSTANCES, PREPARATIONS AND ARTICLES  
Previous Marketing and Use Directives)

• **YES-** the correct use of this product will not lead to contravention of this regulation as implemented on June 1st 2007-note the constituents  
table & information on trace metals given above

**Compliance with Automotive Lists- specifically the requirements listed in Global Automotive Declarable Substance List GADSL (March 2008)**

• **NO** - the product does not conform to the requirements or has not been evaluated

**Compliance with US Council of Northeastern Governors (CONEG) WHEREIN the total heavy metals is below the following:**

Cd	100 ppm
Hg	100 ppm
Pb	100 ppm
Cr	100 ppm

• **YES** - the product conforms to the requirements of the Directive

**Compliance with California Proposition 65 and other USA State regulations**

SEE USA COUNTRY SPECIFIC MSDS - PLEASE CONTACT YOUR LOCAL CIBA SALES OFFICE
